

For over three decades, we've worked hard to help thousands of organizations like yours overcome well-being challenges in their workplace. And just like you, they started with a low-cost or fixed EAP that wasn't invested in their success and did not sufficiently assist their leaders or employees. In the long run, it wasn't a bargain. Let us show you how a top-tier EAP can optimize the well-being of your whole workforce and help you shine. [REQUEST A DEMO](#)

01 TRUSTED PARTNER

Agents, health plans and complementary service providers choose us as their trusted EAP partner because we provide creative, high quality well-being solutions to our customers. Our service, program and personal excellence are all geared toward your success and have earned many industry awards. We reach beyond our own business. Our staff are thought leaders who've served in top positions at the local and national levels of our profession. At First Sun, we find solutions that work for you. We stand behind them, and we make a difference.

OTHERS provide EAP services as loss leaders for another product or have limited ability to provide creative, tailored solutions.

02 UNLIMITED RISK CONSULTS

With First Sun, you'll experience unlimited access to a team of experts in workplace behavioral health to help manage your behavioral risk and enhance your employee productivity. Your leadership can discuss issues related to performance, substance misuse, workplace conduct, threats of violence, harassment and more. The Risk team works with your supervisor to develop an action plan consistent with your company's policies to address performance or other issues that could result in financial loss or legal liability for your organization.

OTHERS may not have risk management services or behavioral health professionals that specialize in high-risk situations.

03 ENGAGEMENT BUILDING

You'll receive strategic support from our account managers to reinforce successful outcomes for your organization. They share free educational and promotional items to keep the EAP top of mind for your employees. They inform your leaders with newsletters, send reports to reveal user trends, and invite customers to First Sun educational events, orientations, podcasts and webinars.

OTHERS may not have account managers or provide EAP materials. To keep costs down, they prefer you don't promote use of services.

04 INTEGRATED SERVICES

Your population has access to services that match their needs through our robust national network of diverse counselors, digital service partners, life management professionals, and community resources. These amenities are monitored and quickly adjusted to ensure optimal access to clients. We also integrate with external providers preferred by our customers. And we back up all of this with our quality assurance team.

OTHERS have large networks with many counselors who are expired or not taking new clients. They don't integrate with your other service providers.

05 DISRUPTIVE EVENT MANAGEMENT

Receive 24/7 consultation and tailored on site or online support when your organization experiences an incident. Whether your dealing with the death of an employee or a traumatic accident, our Risk team can guide your leaders to respond appropriately to limit the impact on employees. Through the crisis and beyond, we'll work with you to help keep everyone on a path to recovery.

OTHERS may not serve company emergencies or have experts in workplace behavioral health to address all levels of the organization.

06 REALIZE YOUR POTENTIAL

All organizations experience challenges to their resilience. Our suite of à la carte services integrate with our EAP to enhance your organizational well-being and overall ROI. Employees and leaders need access to tools to adapt, learn and grow. Choose from a broad range of training and coaching to prepare and elevate your employees at all levels. Use our workplace resilience services to support the organization through disruptive events, layoffs, terminations or threats of violence.

OTHERS may only be equipped to serve counseling needs for employees. They are not structured to help your organization achieve maximum ROI.

With First Sun, EAP means Everyone At Potential. As a top-tier EAP, we are committed to delivering comprehensive coverage that helps you avoid legal liability, and supports employee resiliency and a healthy organization. The investment you make brings you tailored programs, expert staff, extensive services, buying power and results that drive positive well-being outcomes.
